

# GENTLEMAN'S JOURNAL

## In House Wordpress Developer | London Office

Over the last five years, Gentleman's Journal has built one of the most premium and influential men's luxury audiences in the world. Today, Gentleman's Journal is the premier lifestyle publication for the modern gentleman – a curated handbook of the finer things in the world.

Following a very successful 2019, we are now looking to for an In House Wordpress Developer to work three days a week and work across a multitude of projects.

The successful candidate must have the the following skill set and knowledge:

### Backend

- Strong proficiency in PHP
- Object orientated and functional programming
- Wordpress Development
- Version Control [GIT] / Submodules
- MVC Framework Experience
- Composer
- CLI
- REST API's

### Frontend

- HTML / Twig (Timber)
- Javascript ES6+ / jQuery
- SCSS - Flex / Grid
- Familiar gulp / Node-sass / Babel
- Familiar with NPM
- Ajax

### Wordpress Specific

- Hooks and Filters
- Woocommerce

### The Person

- An incredible personality both online and offline.
- Confident in voicing opinion backed up with fact.
- Impeccable attention to detail
- Ability to manage multiple projects simultaneously
- Excellent time management and organisation skills
- The ability to plan, schedule and meet deadlines
